

README:

All of the Pieces included in these files are intended for educational use only, and not designed for actual deployment. By using these files you are accepting any and all repercussions of your use of them. I have disabled main portions of the code to prevent malicious use. Based on Peer review by PHD members of the school that I studied Under, I have disabled a few features in this code to prevent its use in an actual capacity, if you are interested on my thought process or are in need of guidance in studying steganography feel free to contact me or leave a comment on my repository.
